Steak on Stone Guidelines

- The stone will be heated to a maximum of 250°C so please do not touch the stone.
- The stone will stay sizzling for around 20 – 30 minutes, & the steak will stay cooking for about 40 – 50 minutes after serving.
- The dry heat of the stone will sear the outside of the steak, meaning it will not cook through too quickly.
- If you like your steak well done you can cut it into smaller pieces & these will begin to cook through as you turn them.
- If you like your steak rare, the main steak will stay rare on the inside for up to 20 minutes allowing you to enjoy every mouthful exactly as you like it, with every last bite as hot & delicious as the first.
